# OUR MIAMI MARINE DEBRIS PROBLEM

Albert Pallot Park  
38<sup>th</sup> Street and Biscayne Bay

- Plastic pollution is a global problem not just in third world countries, but right here in Miami
- We remove 60,000 pounds of debris annually from Miami shorelines
- Most of what we find is single-use
- Biscayne Bay IS our Economy. Plastics endanger marine life, enter our food chain, and decrease the value of real estate and tourism

MacArthur Causeway

## OUR MISSION

We engage volunteers to clean their neighborhoods, shorelines and waterways to raise awareness about marine debris and encourage people to reduce their reliance on single-use disposable plastics

## WHY?

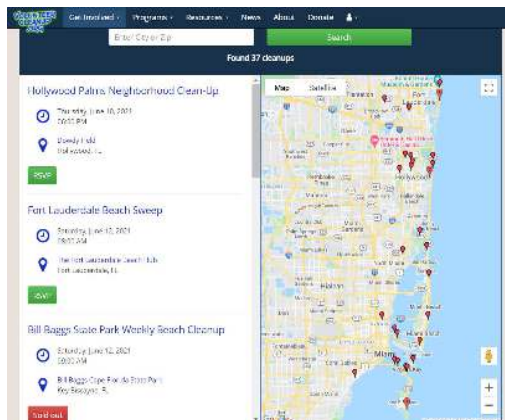

Cleanups alone won't solve the problem, but they can provide an eye-opening experience that inspires the necessary changes to stem the flow of marine debris.

*\* Registered 501c3 nonprofit organization "Miami-Dade Coastal Cleanup" \**

# OUR CORE PROGRAMS

## [www.VolunteerCleanup.Org](http://www.VolunteerCleanup.Org)

Our web platform is the go-to destination to connect volunteers to local shoreline cleanups

We mobilize hundreds of volunteers across numerous cleanup events each week.

## International Coastal Cleanup

Organizers for Miami-Dade County's participation in the annual International Coastal Cleanup

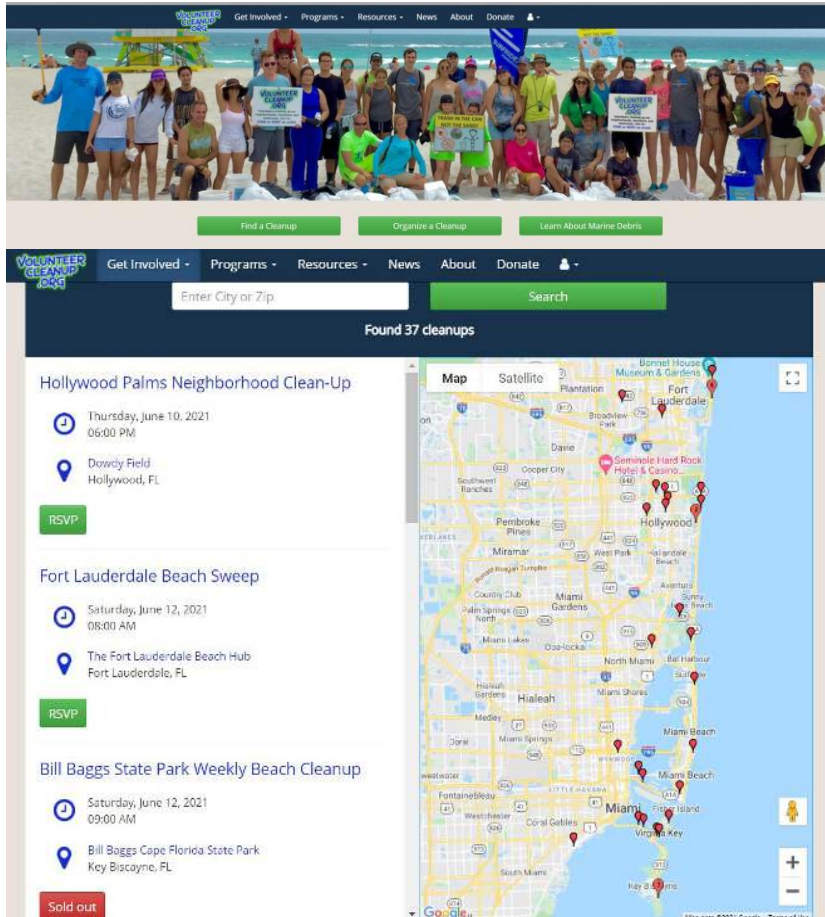

50+ cleanups and 3,000 volunteers removing 21,000+ pounds of debris in a single day

## Private Events

- Private Cleanups and Corporate Days of Service
- Educational and fun team-building or marketing event

# Our Website Platform - [www.VolunteerCleanup.Org](http://www.VolunteerCleanup.Org)

- Our web platform is a free community resource that helps cleanup organizers recruit, manage and communicate with volunteers
- Volunteers (including students who need service hours) can search by zip code to find local cleanups
- Volunteers can also sign up for the weekly e-blast of nearby cleanups, which broadens the reach of individual organizers and builds community. Thousands of volunteers receive our weekly e-blast.

# STATUS AND IMPACT TO-DATE

Number of  
Cleanups

3,258

Registered  
Volunteers

33,060

Volunteer  
Hours

281,557

Pounds of  
Debris

651,600

- We scale by building a network of community cleanup hosts, which results in multiple cleanup events and volunteer opportunities every week.
- We support cleanup hosts through mentorship, material support, and connecting with new volunteers, which encourages them to lead more cleanups.
- Together with our hosts and volunteers, we have created a grassroots movement to encourage behavior change and inspire further engagement on the marine debris crisis across individuals, business and government.

MIAMI BEACH MARCH 15, 2018 5:28 PM

## Miami Beach kayaker is on mission to clean up city's waterways and help alleviate backed-up drains

**HIGHLIGHTS**  
A kayaker spends every Sunday scooping up bottles, cans, plastic bags—whatever else he finds—from the lakes and canals in Miami Beach. He has hauled more than a ton of garbage out of the water.

By Christina Veiga

David Doebler's kayak is crammed with junk.

An orange traffic cone, a Styrofoam cooler, 23 plastic bottles, aluminum cans and countless bits of other random trash weigh down his yellow vessel—almost to the point that it could take

## To Fight Plastic Waste, Miami Beach Eyes Curbside Water Purifiers

By CHRISTINE DRANTER • MAY 24, 2018

Listen A-12

WLRN's Christine Dranter interviews Volunteer Cleanup.org Executive Director Dana Sherrinell about new water purification kiosks planned for Miami Beach.

On a scorching day at the beach, there's almost nothing like reaching into your cooler or a beach bag and taking a swig out of an ice cold water bottle.

But if they're plastic, all those little bottles add up.

# INTERNATIONAL COASTAL CLEANUP

SEPTEMBER 16, 2023 (SATURDAY)

International Coastal Cleanup (ICC), spearheaded by the Ocean Conservancy, every 3<sup>rd</sup> Saturday in September, is the world's largest one-day volunteer effort to clean up the marine environment and raise awareness for plastic pollution in our oceans. VolunteerCleanup.org is Ocean Conservancy's local partner, coordinating Miami-Dade County's participation (since 2016).

## 2022 ICC Results

- 56 cleanups around Miami-Dade on one day
- 3,000 adult and student volunteers
- 22,125 pounds of debris removed and cataloged
- 31 miles of coastline covered
- Pre and Post Event news and media coverage

[https://www.youtube.com/watch?v=hye\\_yuq2dVU&t](https://www.youtube.com/watch?v=hye_yuq2dVU&t)

# MIAMI-DADE COUNTY ICC – POST EVENT VOLUNTEER SURVEY

**We are reaching new people!** For half of survey respondents, the 2021 ICC was their first cleanup

HOW MANY TIMES HAVE YOU PARTICIPATED IN A CLEANUP PRIOR TO ICC?

**The ICC is a great event!** 98% rated the event a 4 or 5, where 5 is amazing

On a scale of 1-5, rate your ICC cleanup experience

**Participating in a cleanup is a powerful learning experience!** 60% had an increase in knowledge

How would you rate your level of knowledge about our local marine debris problem?

**Cleanups are a steppingstone to further action!** 98% want to do more to protect the environment

DID PARTICIPATING IN THIS EVENT MAKE YOU WANT TO DO MORE TO PROTECT THE ENVIRONMENT?

**Cleanups can be a catalyst for behavior change!**

If yes, what NEW actions will you commit to do? (check all that apply)

“I knew about plastic pollution of course but I really did not realize the extent to which it was a problem until I saw the sheer amount of trash that was in the mangroves. It was shocking!”

Just how much small trash there is. You notice big trash as you walk by, but when you're actually picking everything up, you start noticing all the little bits and pieces.

“That the reduction of plastic use is vital to our environment.”

## CORPORATE DAY OF SERVICE / TEAM BUILDING / MARKETING ACTIVITY

- Private 2-hour family friendly event for groups of all sizes, led by experienced on-site Cleanup Coordinator at a location in your preferred geography
- All cleanup supplies provided (garbage bags, buckets, gloves, water refills, sunscreen, etc)
- Educational content about marine debris and what we can all do to address this growing problem
- Contests and prizes awarded for different 'finds'
- Invite family, customers or business partners to build closer relationships
- Optional citizen science data collection and logging activity
- Optional: BBQ's, boat/kayak/snorkel cleanup, yoga, drum class

*Feedback from a Client: "We were not familiar with Miami as we were all traveling from afar and they helped us find a great beach and create an experience for our leadership team that felt unique and special to us. They were responsive, friendly, accommodating, and were the perfect coaches as to how to navigate our beach clean up. Most of all - they inspired us!"*

<b>Pocket Ashtray Program Sponsor (\$.50 each)</b>	\$1,000-5,000	Contacts at Tobacco Retailers for deployment	On-going

## 2023 EXPANSION PROJECT PLANS

### Geography Expansion (in development)

Expand into 4 new geographies in Florida, repeating our proven model to create networks of cleanup hosts that benefit from each others efforts.

### Change-Maker Mentorship Program (in pilot)

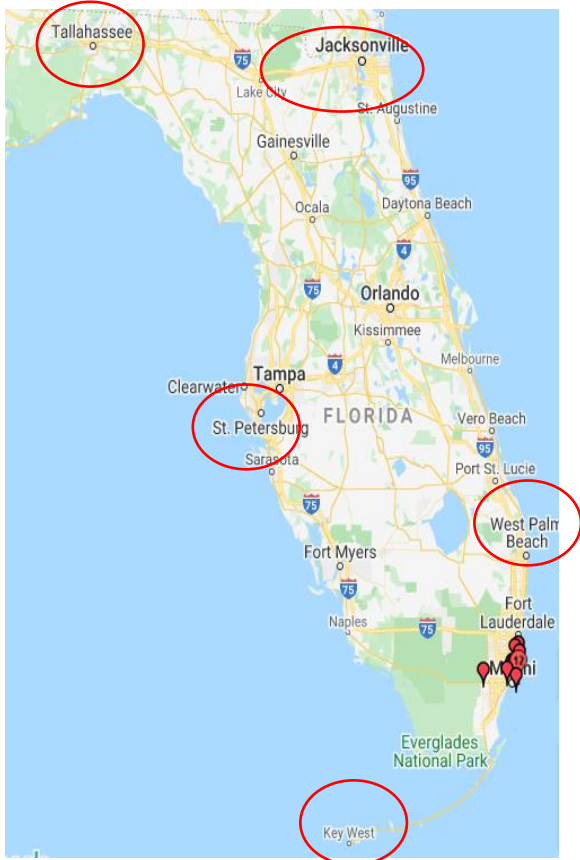

Adapt our current organizer mentorship to a 10-week cohort for high school students. Through the process of leading a cleanup, students will learn valuable skills to become community change makers.

### Trash-a-thon Fundraising Platform (in design)

School Groups raise money for school projects by performing a neighborhood or shoreline cleanup, while also spreading awareness of the marine debris crisis and solutions.

# Platform Expansion

- We have proven our model can help build and connect community through cleanups, so now it is time to introduce our free platform into new geographies.
- We need to identify groups and individuals already leading cleanups, share the benefits of our platform, and get them to post their cleanups to our site.
- We can leverage our Google Adwords Grant (\$10k per month) to drive new volunteers.
- Territories we want to invest in: Florida Keys, West Palm Beach, Jacksonville, Tampa / St Pete and Tallahassee.

# Change Maker Mentorship Program

- We are creating a 10-week “Environmental Change-Maker” after-school mentorship program, where high school students acquire and practice valuable activism skills through the process of organizing and leading a shoreline cleanup.
- The program will start with a background primer on the marine debris problem. Next, the students will plan, promote and execute a local shoreline cleanup. Finally, we will lead a broader discussion (including guest speakers) on ways they can further engage individuals, businesses and government on marine debris and other issues they care about.
- This course will develop valuable hard and soft skills including strategy, collaboration, communication and engagement skills that apply to a wide range of endeavors, benefiting both the student and the issues they care most about.
- A seed funding grant has been awarded for this project.

# New Program - 'Trash-a-thon' (platform in development)

## SCHOOL GROUP FUNDRAISING PROGRAM

“Trash-a-thon” is an innovative twist on the classic “a-thons” fundraisers where students solicit pledges for litter removal from neighborhoods or shorelines to raise money for school sustainability projects (ie, water bottle refill stations), needed materials or class trips, while also spreading awareness of the marine debris crisis and solutions.

350 pounds

# 'Trash-a-thon' – How it Works

- Adult mentors from school clubs or PTAs will lead students through our educational curriculum and plan a cleanup fundraiser hosted on our online pledge platform.

- Students will seek 'per pound' or 'per hour' pledges from friends, family, businesses, and local government through personal and social media outreach. Funds will support school sustainability projects (ie, water bottle refill stations), needed materials or class trips.

- As students ask for pledges, they will spread awareness and become advocates for reductions in single-use plastics and proper waste management.

- Student will clean a nearby park, neighborhood, or beach and adults will weigh the bags. Alternatively, students can do solo cleanups with parents validating the weight.

- The platform will automatically collect the funds and disperse to the school group.

- As we have experienced through our core program, many of the students will influence family behaviors, and some will use the experience and learned skills to become community changemakers.

# How much money can a school group raise?

	Beach	City Neighborhood
Number of Students	20	30
# of pledges per student	10	20
Average per Pound Pledge	\$0.50	\$1.00
Pounds Collected per Student	10	20
Local business donations	\$500	\$2,000
Each Student Raises	\$50	\$400
Total Pounds Collected	200	600
Total Raised	<b>\$1,500</b>	<b>\$14,000</b>

# Pocket Ashtrays for Cigarette Litter Reduction

- VolunteerCleanup.Org designed a custom reusable pocket ashtrays to distribute to smokers at music festivals, events and on the beach.
- Volunteers approach mid-smoke with a smile, a pocket ashtray, and say 'Hey friend, here is a free pocket ashtray for you so you have a good place to put your butt when you are done.'
- In an effort to keep a positive engagement, we let our messaging on the pocket ashtray educate that their butts are not biodegradable (they are made of plastic), and that cigarette litter washes into storm drains and straight out to waterways.
- We've deployed over 10,000 pocket ashtrays, and we were selected to present our methodology at the 2018 International Marine Debris Conference
